

Software Test Automation Engineer (Analytics & GUI) (m/f/d)

Full-time

MarineXchange Software GmbH
Gadollaplatz 1
8010 Graz | Austria
www.mxp.com

Workload	38.5 h/week
Department	Development
Location	Graz, Austria (CET)

ABOUT

With the MXP software suite, MarineXchange offers the only enterprise software platform for the cruise industry. It provides a complete portfolio of powerful tools to better manage cruise-ship operations in a corporate office as well as onboard ships. Currently, more than 50 companies with over 385 installations are using the MXP enterprise platform to manage their business.

JOB DESCRIPTION

We are looking for a Test Automation Engineer with a strong focus on analytics tracking automation to join our team. In this role, you will ensure the accuracy, reliability, and consistency of analytics implementations across digital platforms through automated testing and validation.

KEY RESPONSIBILITIES

- Automate testing of Google Analytics / Tealium tracking
- Validate events, parameters, data layers, and network requests
- Implement analytics automation using Cypress or Playwright
- Collaborate closely with QA, developers, and Module Owners on tracking specifications
- After completion of the analytics project, focus on GUI test automation with Ranorex
- Maintain stable and maintainable automated test suites
- Document test cases, results, and tracking standards

REQUIREMENTS

- Experience in test automation for web applications
- Hands-on experience with Cypress or Playwright
- Understanding of Google Analytics and/or Tealium tracking
- Ability to validate analytics beyond UI (network calls, payloads)
- Solid knowledge of web technologies and browser DevTools
- Structured and reliable working style
- Strong problem-solving skills and analytical thinking
- Team player with excellent communication skills
- Experience in the cruise industry is a plus
- Fluent in English and German

Nice to Have:

- Experience with Ranorex or similar GUI automation tools
- CI/CD integration experience
- Experience with tracking specifications and analytics documentation

BENEFITS & PERKS

- Rapid professional and personal development at the leading software supplier in the cruise industry
- Home Office and Flextime model
- Secure and long-term employment in a fast-growing industry
- A work environment with exciting and varied tasks
- A great working atmosphere in a highly motivated and successful team with international corporate culture
- The minimum salary stipulated by the collective agreement for this position, based on the above-mentioned requirements profile in the IT collective agreement, is € 3,267.00 gross per month on a full-time basis (14 payments per year). Depending on your professional qualifications and experience, an overpayment is possible.
